

PRICING FOR 2020

At Kimray, our mission is to make a difference in the lives of those we serve. Over the years we've done that by keeping our prices as low as possible while still providing the best quality products for your production needs.

The economy of the energy industry is constantly changing. Right now we do not see a need to increase our prices for 2020. However, we will continue to re-evaluate as tariffs and corresponding price increases on raw materials come into play. If anything changes on our end, we will provide additional information at that time.

As always, we appreciate the trust you put in the Kimray brand. Please contact your authorized distributor or Kimray store with any questions.
