

TREATER & MECHANICAL VALVE DESIGN UPDATE

Redesigned stuffing boxes for 2" Treater Valves & 2-3" Mechanical Valves

This product notice is to inform you that we have redesigned our stuffing boxes for 2" Treater Valves and 2" and 3" Mechanical Valves.

We received some reports of 2" Treater Valves, 2" Mechanical Valves, and 3" Mechanical Valves leaking at the stuffing boxes at low downstream pressures. While the instances of this are few, we have redesigned these parts for optimal operation.

The redesigned 3" stuffing boxes have already been released, and the redesigned 2" components are scheduled to go into production May 15, 2020, at which point all 2" Treater and Mechanical Dump Valves will be assembled with the redesigned components.

Below is the timeline of the releases:

Date	First S/N	Event
6/1/18	2181520001	Initial Change from Old style (brass) to new style (stainless) 2" and 3" Treater Valves and Mechanical Dump Valves. Serial numbers after this may be affected by the leaking issue.
11/20/18	2183240001	3" Treater Valve - reverted back to brass style to address the issue.
1/15/20	2200150001	3" Treater Valve – began shipping assemblies with new stuffing box design
4/06/20	2200970001	3" Mechanical Dump Valve – began shipping assemblies with new stuffing box design
5/15/20	2201280001	Estimated release of 2" redesigned components, both Treater Valves and Mechanical Dump Valves
